

RPI Announces General Informatics' Acquisition of VAZATA's MSP Division

DALLAS, TX | December 14th, 2022 - Rosewood Private Investments' ("RPI" or "Rosewood") portfolio company, General Informatics ("GI"), is pleased to announce the acquisition of VAZATA's Managed Services Division.

Headquartered in McKinney, Texas, VAZATA operates enterprise quality data centers designed for mission-critical colocation, managed cloud hosting and cloud computing services across the United States. VAZATA will continue to operate its data center facilities, while the Managed Services Division will now operate as a part of General Informatics.

This transaction allows VAZATA and General Informatics to focus on their respective core offerings and enhances each company's capabilities, services, and solutions.

"We are excited about this opportunity because of the strategic value it provides General Informatics," shared Don Monistere, CEO & President of General Informatics. "This acquisition significantly expands our presence in the Texas market, and by partnering with Lance Black (CEO of VAZATA) and his team, we are uniquely positioned to meet the growing needs of our clients."

This is General Informatics third acquisition in Texas in the past year, following the acquisitions of Unicom Technologies and CMS IP. With four service hubs located in Texas, (Beaumont, Waco, Lufkin, and Columbus), this acquisition provides General Informatics a meaningful presence in the Dallas market.

The acquisition of VAZATA's Managed Services division is a strategic move for General Informatics to expand its reach, capabilities, and competitive advantage. General Informatics looks forward to continuing its rapid growth and technological innovation to better serve the needs of its customers.

Briton Burge, Principal at RPI, said: "Don and the GI team continue to impress us with their dedication to and execution of acquisitive and organic growth. We are thrilled with the further expansion into our home market of Dallas, and we look forward to continuing to collaborate with Lance and the VAZATA team as we build the preeminent MSP in the Southeast."

About General Informatics:
